DATE MAILED: 01/12/2010

Table with 5 columns: APPLICATION NO., FILING DATE, FIRST NAMED INVENTOR, ATTORNEY DOCKET NO., CONFIRMATION NO.

10/698,017 10/31/2003 Gilbert G. Weigand 06975-335001/ 7142

TITLE OF INVENTION: LOCATION-BASED REGULATION OF ACCESS

PERSONALIZA

Table with 7 columns: APPLN. TYPE, SMALL ENTITY, ISSUE FEE DUE, PUBLICATION FEE DUE, PREV. PAID ISSUE FEE, TOTAL FEE(S) DUE, DATE DUE

nonprovisional NO \$1510 \$0 \$0 \$1510 04/12/2010

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

**Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE
 Commissioner for Patents
 P.O. Box 1450
 Alexandria, Virginia 22313-1450
 or Fax (571)-273-2885**

INSTRUCTIONS: This form should be used for transmitting the ISSUE FEE and PUBLICATION FEE (if required). Blocks 1 through 5 should be completed where appropriate. All further correspondence including the Patent, advance orders and notification of maintenance fees will be mailed to the current correspondence address as indicated unless corrected below or directed otherwise in Block 1, by (a) specifying a new correspondence address; and/or (b) indicating a separate "FEE ADDRESS" for maintenance fee notifications.

CURRENT CORRESPONDENCE ADDRESS (Note: Use Block 1 for any change of address)

26171 7590 01/12/2010

FISH & RICHARDSON P.C.
 P.O. BOX 1022
 MINNEAPOLIS, MN 55440-1022

Note: A certificate of mailing can only be used for domestic mailings of the Fee(s) Transmittal. This certificate cannot be used for any other accompanying papers. Each additional paper, such as an assignment or formal drawing, must have its own certificate of mailing or transmission.

Certificate of Mailing or Transmission

I hereby certify that this Fee(s) Transmittal is being deposited with the United States Postal Service with sufficient postage for first class mail in an envelope addressed to the Mail Stop ISSUE FEE address above, or being facsimile transmitted to the USPTO (571) 273-2885, on the date indicated below.

This collection of information is required by 37 CFR 1.311. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 12 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, Virginia 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)

(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 1000 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 1000 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (http://pair.uspto.gov).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

Notice of Allowability

Application No. 10/698,017	Applicant(s) WEIGAND ET AL.	
Examiner BENJAMIN R. BRUCKART	Art Unit 2446	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address--

All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. **THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS.** This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.

- 1. This communication is responsive to the amendment 10-28-09.
- 2. The allowed claim(s) is/are 1-21, 24-49, 52-59, renumbered to claims 1-55.
- 3. Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
 - a) All b) Some* c) None of the:
 - 1. Certified copies of the priority documents have been received.
 - 2. Certified copies of the priority documents have been received in Application No. _____.
 - 3. Copies of the certified copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).

* Certified copies not received: _____.

Applicant has THREE MONTHS FROM THE "MAILING DATE" of this communication to file a reply complying with the requirements noted below. Failure to timely comply will result in ABANDONMENT of this application.

THIS THREE-MONTH PERIOD IS NOT EXTENDABLE.

- 4. A SUBSTITUTE OATH OR DECLARATION must be submitted. Note the attached EXAMINER'S AMENDMENT or NOTICE OF INFORMAL PATENT APPLICATION (PTO-152) which gives reason(s) why the oath or declaration is deficient.
 - 5. CORRECTED DRAWINGS (as "replacement sheets") must be submitted.
 - (a) including changes required by the Notice of Draftsperson's Patent Drawing Review (PTO-948) attached
 - 1) hereto or 2) to Paper No./Mail Date _____.
 - (b) including changes required by the attached Examiner's Amendment / Comment or in the Office action of Paper No./Mail Date _____.
- Identifying indicia such as the application number (see 37 CFR 1.84(c)) should be written on the drawings in the front (not the back) of each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d).**
- 6. DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.

Attachment(s)

- 1. Notice of References Cited (PTO-892)
- 2. Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3. Information Disclosure Statements (PTO/SB/08), Paper No./Mail Date _____
- 4. Examiner's Comment Regarding Requirement for Deposit of Biological Material
- 5. Notice of Informal Patent Application
- 6. Interview Summary (PTO-413), Paper No./Mail Date _____.
- 7. Examiner's Amendment/Comment
- 8. Examiner's Statement of Reasons for Allowance
- 9. Other _____.

/Benjamin R Bruckart/
Primary Examiner, Art Unit 2446

Art Unit: 2446

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview and email with Thomas Rozylowicz on 12/8/2009.

Art Unit: 2446

Amendments to the Claims:

This listing of claims replaces all prior versions and listings of claims in the application:

Listing of Claims:

1. (Currently Amended) A method of managing access to content, the method comprising:
 - receiving a first content request initiated at a jukebox for access to a content selection, wherein the content request includes triggering the content request based on the jukebox reading an removable electronic storage media that includes the content selection;
 - determining that a permissible location for content selection has not been specified;
 - identifying, during the first content request, a jukebox location corresponding to a location of the jukebox;
 - setting, based on determining that the permissible location for content selection has not been specified, via an input device that supports location services by writing location information to the removable electronic storage media to bind a particular permissible location for a content selection to a jukebox location, using the jukebox, the permissible location for the content selection as the jukebox location, wherein the jukebox location is a location of a device being used to render the content selection and the input device is used to bind one or more locations to the removable electronic storage media;
 - receiving a second content request at the jukebox for the content;
 - reading, during the second content request, the content selection to determine the permissible location for rendering the content selection;
 - relating, during the second content request, the jukebox location to the permissible location; ~~and~~
 - associating the removable electronic storage media with a counter or timer that enables the removable electronic storage media to be in additional regions so long as the removable

Art Unit: 2446

electronic storage media is accessed a specified percentage of time from a base region or home location;

enabling the second content request when the permissible location supports access to the content selection from the jukebox location during the second content request; [[.]]

enabling the content request for a limited period of time when the permissible location does not support using the jukebox location; and

enabling the content request for a limited class of content requests when the permissible location does not support using the jukebox location.

2. (Previously Presented) The method of claim 1 wherein receiving the first content request includes triggering the first content request based on the jukebox reading an optical disk that includes the content selection.

3. (Previously Presented) The method of claim 1 wherein receiving the first content request includes triggering the first content request based on the jukebox downloading the content selection from a host.

4. (Previously Presented) The method of claim 1 wherein receiving the first content request includes triggering the first content request based on the jukebox accessing an analog content selection so that the analog content selection may be accessed.

5. (Previously Presented) The method of claim 1 wherein receiving the first content request includes triggering the first content request based on the jukebox reading a content label associated with accessing a film so that the film may be accessed.

6. (Previously Presented) The method of claim 1 wherein receiving the first content request includes triggering the first content request based on the jukebox accessing an encoded, publicly-distributed signal so that the publicly-distributed signal may be accessed in a decoded form.

Art Unit: 2446

7. (Previously Presented) The method of claim 1 wherein identifying, during the first content request, the jukebox location includes using a Global Positioning System receiver to determine the jukebox location associated with the jukebox accessing the content selection.

8. (Previously Presented) The method of claim 1 wherein identifying, during the first content request, the jukebox location includes using network information associated with the jukebox generating the content request to identify the jukebox location.

9. (Original) The method of claim 8 wherein using network information to identify the jukebox location includes correlating an Internet Protocol (IP) address with a geographical region that encompasses the jukebox.

10. (Previously Presented) The method of claim 1 wherein identifying, during the first content request, the jukebox location includes identifying a user identity associated with the content request or the jukebox related to the content request, correlating the user identity with billing information, and using the billing information to identify the jukebox location.

11. (Original) The method of claim 10 wherein determining the permissible location includes reading a location label associated with a medium that includes the content selection.

12. (Original) The method of claim 10 wherein reading the location label includes reading a geographical location or region from which access to the content selection is permissible.

13. (Original) The method of claim 10 wherein the location label is magnetically encoded on the medium that includes the content selection.

14. (Original) The method of claim 10 wherein the location label is optically encoded on the medium that includes the content selection.

Art Unit: 2446

15. (Previously Presented) The method of claim 10 wherein the location label is visually encoded on the medium that includes the content selection.

16. (Original) The method of claim 1 wherein determining the permissible location includes polling a host to identify a geographic region where the content selection may be used in the content request.

17. (Original) The method of claim 1 wherein relating the jukebox location to the permissible location includes determining whether the jukebox location lies within a geographic region described by the permissible location.

18. (Original) The method of claim 17 wherein determining whether the jukebox location lies within the geographical region includes determining whether the jukebox location lies within a predetermined distance of the permissible location.

19. (Original) The method of claim 17 wherein determining the permissible location includes resolving an address to a location.

20. (Original) The method of claim 17 wherein determining the permissible location includes resolving company information to an address.

21. (Previously Presented) The method of claim 1 further comprising denying the second content request when the permissible location does not support using the jukebox location.

22-23. (Cancelled)

24. (Previously Presented) The method of claim 1 wherein enabling the second content request for the limited class of content requests includes enabling read-only operations and denying copy operations.

Art Unit: 2446

25. (Previously Presented) The method of claim 1 further comprising enabling the second content request when the user registers to participate in a location-based content regulation system.

26. (Original) The method of claim 25 further comprising providing an automated interface enabling the user to participate in the location-based content regulation system.

27. (Original) The method of claim 1 further comprising enabling the permissible location to be modified.

28. (Original) The method of claim 27 wherein enabling the permissible location to be modified includes modifying the permissible location by interfacing with a host that manages the permissible location.

29. (Original) The method of claim 27 wherein enabling the permissible location to be modified includes enabling the user to modify the permissible location.

30. (Currently Amended) A location-based content regulation system comprising:
a content system structured and arranged to receive a first content request initiated at a jukebox location for accessing a content selection, wherein the content request includes triggering the content request based on the jukebox reading an removable electronic storage media that includes the content selection;

a determining processor structured and arranged to determine that a permissible location for content selection has not been specified;

a location processor structured and arranged to identify, during the first content request, a jukebox location corresponding to a location of the jukebox;

an encoding processor structured and arranged to set, based on determining that the permissible location for content selection has not been specified, via an input device that supports location services by writing location information to the removable electronic storage

Art Unit: 2446

media to bind a particular permissible location for a content selection to a jukebox location, using the jukebox, the permissible location for the content selection as the jukebox location, wherein the jukebox location is a location of a device being used to render the content selection and the input device is used to bind one or more locations to the removable electronic storage media;

the content system being structured and arranged to:

receive a second content request at the jukebox for the content selection;

read, during the second content request, the content selection to determine the permissible location for rendering the content selection;

a regulating processor structured and arranged to:

relate the jukebox location to the permissible location during the second content request, and

associate the removable electronic storage media with a counter or timer that enables the removable electronic storage media to be in additional regions so long as the removable electronic storage media is accessed a specified percentage of time from a base region or home location; and

a decision processor structured and arranged to:

enable the second content request when the permissible location supports access to the content selection from the jukebox location during the second content request,

enable the content request for a limited period of time when the permissible location does not support using the jukebox location, and

enable the content request for a limited class of content requests when the permissible location does not support using the jukebox location.

31. (Previously Presented) The system of claim 30 wherein the content system is structured and arranged to trigger the first content request based on a jukebox to read an optical disk to play the content selection.

Art Unit: 2446

32. (Previously Presented) The system of claim 30 wherein the content system is structured and arranged to trigger the first content request based on a jukebox downloading the content selection from a host.

33. (Previously Presented) The system of claim 30 wherein the content system is structured and arranged to trigger the first content request based on a jukebox accessing an analog content selection.

34. (Previously Presented) The system of claim 30 wherein the content system is structured and arranged to trigger the first content request based on a jukebox accessing an encoded, publicly-distributed signal so that the publicly distributed signal may be accessed in a decoded form.

35. (Original) The system of claim 30 wherein the location processor is structured and arranged to use a Global Positioning System receiver to determine the jukebox location associated with a jukebox accessing the content selection.

36. (Original) The system of claim 30 wherein the location processor is structured and arranged to use network information associated with a jukebox generating the content request to identify the jukebox location.

37. (Original) The system of claim 36 wherein the location processor is structured and arranged to correlate an Internet Protocol (IP) address with a geographical region that encompasses the jukebox.

38. (Original) The system of claim 36 wherein the location processor is structured and arranged to identify the jukebox location by identifying a user identity associated with the content request or a jukebox related to the content request, correlating the user identity with billing information, and using the billing information to identify the jukebox location.

Art Unit: 2446

39. (Original) The system of claim 36 wherein the location watermark reader is structured and arranged to read a location label associated with a medium that includes the content selection.

40. (Original) The system of claim 39 wherein the location label indicates a geographical location or region from which access to the content selection is permissible.

41. (Original) The system of claim 39 wherein the location label is magnetically encoded on the medium that includes the content selection.

42. (Original) The system of claim 39 wherein the location label is optically encoded on the medium that includes the content selection.

43. (Original) The system of claim 39 wherein the location label is visually encoded on the medium that includes the content selection.

44. (Original) The system of claim 30 wherein the location watermark reader is structured and arranged to poll a host to identify a geographic region where the content selection may be used in the content request.

45. (Original) The system of claim 30 wherein the regulating processor is structured and arranged to determine whether the jukebox location lies within a geographic region described by the permissible location.

46. (Original) The system of claim 45 wherein the regulating processor is structured and arranged to determine whether the jukebox location lies within a predetermined distance of the permissible location.

47. (Original) The system of claim 45 wherein the regulating processor is structured and arranged to resolve an address to a location.

Art Unit: 2446

48. (Original) The system of claim 45 wherein the regulating processor is structured and arranged to resolve company information to an address that can be resolved to a location.

49. (Previously Presented) The system of claim 30 wherein the decision processor is structured and arranged to deny the second content request when the permissible location does not support using the jukebox location.

50-51. (Cancelled).

52. (Original) The system of claim 51 wherein the decision processor is structured and arranged to enable read-only operations and deny copy operations.

53. (Previously Presented) The system of claim 30 wherein the decision processor is structured and arranged to enable the second content request when the user registers to participate in a location-based content regulation system.

54. (Original) The system of claim 53 further comprising a display process structured and arranged to provide an automated interface enabling the user to participate in the location-based content regulation system.

55. (Original) The system of claim 30 further comprising a modification processor structured and arranged to enable the permissible location to be modified.

56. (Original) The system of claim 55 wherein the modification processor is structured and arranged to modify the permissible location by interfacing with a host that manages the permissible location.

57. (Original) The system of claim 55 wherein the modification processor is structured and arranged to enable the user to modify the permissible location.

Art Unit: 2446

58. (Currently Amended) A location-based content regulation system comprising:

- means for receiving a first content request initiated at a jukebox for access to a content selection, wherein the content request includes triggering the content request based on the jukebox reading an removable electronic storage media that includes the content selection;
- determining that a permissible location for content selection has not been specified;
- means for identifying, during the first content request, a jukebox location corresponding to a location of the jukebox;
- means for setting, based on determining that the permissible location for content selection has not been specified, via an input device that supports location services by writing location information to the removable electronic storage media to bind a particular permissible location for a content selection to a jukebox location, using the jukebox, the permissible location for the content selection as the jukebox location, wherein the jukebox location is a location of a device being used to render the content selection and the input device is used to bind one or more locations to the removable electronic storage media;
- means for receiving a second content request at the jukebox for the content;
- means for reading, during the second content request, the content selection to determine the permissible location for rendering the content selection;
- means for relating, during the second content request, the jukebox location to the permissible location; ~~and~~
- means for associating the removable electronic storage media with a counter or timer that enables the removable electronic storage media to be in additional regions so long as the removable electronic storage media is accessed a specified percentage of time from a base region or home location;
- means for enabling the second content request when the permissible location supports access to the content selection from the jukebox location during the second content request; [[.]]
- means for enabling the content request for a limited period of time when the permissible location does not support using the jukebox location; and
- means for enabling the content request for a limited class of content requests when the permissible location does not support using the jukebox location.

Art Unit: 2446

59. (New) A method of managing access to content, the method comprising:

- receiving a first content request initiated at an electronic media player for access to a content selection, wherein the content request includes triggering the content request based on the electronic media player reading an removable electronic storage media that includes the content selection;
- determining that a permissible location for content selection has not been specified;
- identifying, during the first content request, a electronic media player location corresponding to a location of the electronic media player;
- setting, based on determining that the permissible location for content selection has not been specified, via an input device that supports location services by writing location information to the removable electronic storage media to bind a particular permissible location for a content selection to a electronic media player location, using the electronic media player, the permissible location for the content selection as the electronic media player location, wherein the electronic media player location is a location of a device being used to render the content selection and the input device is used to bind one or more locations to the removable electronic storage media;
- receiving a second content request at the electronic media player for the content;
- reading, during the second content request, the content selection to determine the permissible location for rendering the content selection;
- relating, during the second content request, the electronic media player location to the permissible location;
- associating the removable electronic storage media with a counter or timer that enables the removable electronic storage media to be in additional regions so long as the removable electronic storage media is accessed a specified percentage of time from a base region or home location;
- enabling the second content request when the permissible location supports access to the content selection from the electronic media player location during the second content request;
- enabling the content request for a limited period of time when the permissible location does not support using the electronic media player location; and

Art Unit: 2446

enabling the content request for a limited class of content requests when the permissible location does not support using the electronic media player location.

Art Unit: 2446

REASONS FOR ALLOWANCE

The following is the examiner's statement of reasons for allowance:

Independent claims 1, 30 and 85 and 86 among other things teach: a jukebox/electronic media player that receives content requests for access to a content selection, wherein the content request includes triggering the content request based on the jukebox reading a removable electronic storage media that includes the content selection; determining a permissible location for the content selection has not been specified, identifying a jukebox location corresponding to a location of the jukebox and then setting via an input device that supports location services by writing location information to the removable electronic storage media to bind a particular permissible location for a content selection to a jukebox location, if the permissible location has not been set. The input device is used to bind one or more locations to the removable electronic storage media; associating an electronic media with a counter or timer that enables the electronic media to be in additional regions so long as the removable electronic storage media player is access a specified percentage of time from a base region or home location; enabling content request for a limited period of time; and enabling the content request for a limited class of content requests when the permissible location does not support using the jukebox location within a network environment.

The prior art does not teach the cited limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 2446

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

CORRESPONDANCE INFORMATION

Any inquiry concerning this communication or earlier communications from the examiner should be directed to BENJAMIN R. BRUCKART whose telephone number is (571)272-3982. The examiner can normally be reached on 9:00-5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jeffrey C. Pwu can be reached on (571) 272-6798. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
